BALABANIAN: This is the deposition and</p> <p>5 oral examination of defendant comScore's witness</p> <p>6 designated under Federal Rule of Civil Procedure</p> <p>7 30(b)(6), pursuant to notice and continued by</p> <p>8 agreement of the parties.</p> <p>9 MICHAEL BROWN,</p> <p>10 called as a witness herein, having been first duly</p> <p>11 sworn, was examined and testified as follows:</p> <p>12 EXAMINATION</p> <p>13 BY MR. BALABANIAN:</p> <p>14 Q. I'd like to go over a few ground rules,</p> <p>15 Mr. Brown. My name is Rafey Balabanian. I am an</p> <p>16 attorney for plaintiffs, Mike Harris and Jeff</p> <p>17 Dunstan. I'm joined to my left with Ben Thomassen,</p> <p>18 who's also an attorney for plaintiffs, and Chandler</p> <p>19 Givens sitting next to Ben, another attorney, and</p> <p>20 then my summer associate, Amir Missaghi.</p> <p>21 I just want to talk about a couple ground</p> <p>22 rules before we get into the questioning and</p> <p>23 whatnot. Have you ever been deposed before?</p> <p>24 A. I have.</p> <p>25 Q. Okay. So I need verbal answers from you.</p>

2 (Pages 2 to 5)

MICHAEL BROWN - CONFIDENTIAL - ATTORNEYS' EYES ONLY

<p>1 MICHAEL BROWN</p> <p>2 Q. So I thought just a second ago that you</p> <p>3 said that the software upgrade that superseded</p> <p>4 NSCheck came about in 2003. Can you reconcile the</p> <p>5 two?</p> <p>6 A. Sure.</p> <p>7 Q. Please do so.</p> <p>8 A. Okay. The functionality of NSCheck was</p> <p>9 incorporated into OSSProxy in 2003. Is that more</p> <p>10 clear, sir?</p> <p>11 Q. Uh-huh. So in 2001, is it correct to say</p> <p>12 that panelists were given the option of upgrading to</p> <p>13 OSSProxy from NSCheck?</p> <p>14 A. No.</p> <p>15 Q. Why would that be inaccurate?</p> <p>16 A. I believe the question you asked me</p> <p>17 was -- the first one was the first version of</p> <p>18 OSSProxy, and that was in 2001. We didn't -- it</p> <p>19 wasn't installed at that point to panelists in that</p> <p>20 year.</p> <p>21 Q. Okay. When was the first -- withdrawn.</p> <p>22 When did OSSProxy first get installed in</p> <p>23 panelists' systems?</p> <p>24 A. That was in 2002.</p> <p>25 Q. So there was a test phase of OSSProxy</p>	<p>62</p> <p>64</p> <p>[REDACTED]</p>

<p>106</p> <p>1 MICHAEL BROWN</p> <p>2 Q. -- subsidiaries -- go ahead.</p> <p>3 A. The wording you're using is not the same</p> <p>4 words I would use. There is registration sites that</p> <p>5 execute QA's prescribed process --</p> <p>6 Q. Okay.</p> <p>7 A. -- if things have been completed, as in</p> <p>8 the viewing of the terms of service, some of the</p> <p>9 privacy disclosures, even for any information that's</p> <p>10 captured about like, for example, their name,</p> <p>11 address, those all have to happen -- those are</p> <p>12 all -- happen, and the disclosure happens first.</p> <p>13 After that is completed, then the install the</p> <p>14 software is driven through the web page to install</p> <p>15 in a machine, similar in the manner of how you would</p> <p>16 install the Google toolbar off of its website.</p> <p>17 Q. And do you know who -- which websites</p> <p>18 allow for direct registration like you just talked</p> <p>19 about?</p> <p>20 A. If we walk through that list of the ones</p> <p>21 you enumerated earlier, I could tell you which ones</p> <p>22 are which.</p> <p>23 Q. RelevantKnowledge?</p> <p>24 A. No.</p> <p>25 Q. OpinionSquare?</p>	<p>108</p> <p>[REDACTED]</p>

MICHAEL BROWN - CONFIDENTIAL - ATTORNEYS' EYES ONLY

<p>134</p> <p>1 MICHAEL BROWN</p> <p>2 program?</p> <p>3 MR. SCHAPIRO: Objection, calls for a legal</p> <p>4 conclusion.</p> <p>5 BY MR. BALABANIAN:</p> <p>6 Q. Well, if you -- and I wasn't asking a</p> <p>7 question. You testified earlier that it governs</p> <p>8 that. Do you know if there's any other terms of</p> <p>9 service out there that would somehow govern that</p> <p>10 relationship?</p> <p>11 A. It would be this that --</p> <p>12 Q. This is the --</p> <p>13 A. -- describe -- this is the entirety</p> <p>14 from --</p> <p>15 Q. Okay. So there's no other terms of</p> <p>16 service that comScore would say applies or that the</p> <p>17 subsidiaries can say applies, these are them?</p> <p>18 A. That is correct.</p> <p>19 Q. It might be an obvious question --</p> <p>20 A. I'm just trying to answer your question,</p> <p>21 sir.</p> <p>22 Q. I want to talk about the -- what</p> <p>23 information is collected as set forth in these</p> <p>24 terms.</p> <p>25 A. Okay.</p>	<p>136</p> <p>[REDACTED]</p>
<p>135</p> <p>[REDACTED]</p>	<p>137</p> <p>[REDACTED]</p>

MICHAEL BROWN - CONFIDENTIAL - ATTORNEYS' EYES ONLY

<p>186</p> <p>[REDACTED]</p>	<p>188</p> <p>1 MICHAEL BROWN</p> <p>2 the representation of the date the data was</p> <p>3 received.</p> <p>4 Q. Okay.</p> <p>5 A. Other things you'll see is -- the very</p> <p>6 top, you'll see a unique hash of track information.</p> <p>7 We take the name of the trunk and information about</p> <p>8 it, we run it through an MD5 hash algorithm to</p> <p>9 create the unique ID for it.</p> <p>10 Q. And do you parse where the track came</p> <p>11 from; i.e., the device that it came from?</p> <p>12 A. The kind -- if you look at the column of</p> <p>13 Kind, the column named Kind indicates the location</p> <p>14 of that track.</p> <p>15 Q. Okay. So if that -- if that track were</p> <p>16 on an iPod, it would identify that location?</p> <p>17 A. That is correct.</p> <p>18 Q. Okay. Can you flip to Bates No. 15923 in</p> <p>19 Brown Exhibit 6.</p> <p>20 A. Yes.</p> <p>21 Q. You see in the middle of the page where</p> <p>22 it says "OSSProxy Rules"?</p> <p>23 A. Yes.</p> <p>24 Q. Can you just describe for me generally</p> <p>25 what is meant by OSSProxy Rules?</p>
<p>187</p> <p>[REDACTED]</p>	<p>189</p> <p>1 MICHAEL BROWN</p> <p>2 A. The software project OSSProxy, also</p> <p>3 MacMeter, is designed to reference configuration</p> <p>4 information from a remote re -- my tongue is just</p> <p>5 losing -- remote locate -- remote resource like a</p> <p>6 URL, so the information and -- of the types of</p> <p>7 things we want to do or collect can be configured</p> <p>8 and adjusted quickly without requiring a new version</p> <p>9 of the software to be deployed.</p> <p>10 Q. Well, first, the rules, is that another</p> <p>11 way of saying instructions, instructions to the</p> <p>12 software?</p> <p>13 A. I don't think it's really -- like in my</p> <p>14 personal opinion from the computer science</p> <p>15 definition of things, I think the rules are more</p> <p>16 like definitions or lists --</p> <p>17 Q. Okay.</p> <p>18 A. -- versus instructions. There's --</p> <p>19 instructions to me indicates something that like has</p> <p>20 an if-then conditional, and these do not have</p> <p>21 embedded in that if-then conditional type of things.</p> <p>22 Q. Do you see in the written text under</p> <p>23 OSSProxy slash CProxy Rules, there is two paragraphs</p> <p>24 right under that subheading? Do you see that?</p> <p>25 A. I do.</p>

MICHAEL BROWN - CONFIDENTIAL - ATTORNEYS' EYES ONLY

<p style="text-align: right;">194</p> <p>1 MICHAEL BROWN</p> <p>2 explain why the rule would be outdated because now</p> <p>3 traffic is no longer routed to comScore's proxy</p> <p>4 servers?</p> <p>5 A. It's outdated because we no longer use</p> <p>6 proxy servers, so, therefore, there's no need to</p> <p>7 route traffic to proxy servers.</p> <p>8 Q. When did comScore stop using proxy</p> <p>9 servers?</p> <p>10 A. 2005.</p> <p>11 Q. Why did it stop?</p> <p>12 A. We decided to upgrade the functionality</p> <p>13 of our software to no longer require using proxy</p> <p>14 servers.</p> <p>15 Q. What's a proxy server?</p> <p>16 A. Proxy server is a piece of software that</p> <p>17 runs on a set of servers that receives requests from</p> <p>18 clients; in our case, panelists receive that request</p> <p>19 and initiate a new request on behalf of that</p> <p>20 requester to a target server; that data is then</p> <p>21 returned back to that proxy server, and that data is</p> <p>22 then sent from that proxy server to the respective</p> <p>23 client.</p> <p>24 Q. It's like an intermediary server?</p> <p>25 A. Correct. It is acting as an</p>	<p style="text-align: right;">196</p> 
<p style="text-align: right;">195</p> <p>1 MICHAEL BROWN</p> <p>2 intermediary.</p> <p>3 Q. So now is the -- is the data just</p> <p>4 directly sent to comScore's servers instead of</p> <p>5 routed through a proxy server?</p> <p>6 A. In the case of the proxy server, all --</p> <p>7 all -- give me a second. I'm trying to think of the</p> <p>8 best way to explain this. Data would be routed</p> <p>9 selectively to our proxy servers, and when we are</p> <p>10 operating with proxy servers prior, including and</p> <p>11 prior to 2005. With the CProxy running 100 percent</p> <p>12 locally, the rules are executed locally on the</p> <p>13 panelist's computer, so the information of interest</p> <p>14 gets sent to comScore's servers.</p> <p>15 Q. From the panelist's computer?</p> <p>16 A. From the panelist's computer, correct.</p> <p>17 Q. Okay. Can you turn your attention to</p> <p>18 kind of halfway down the page where it says XPF.</p> <p>19 A. Yes.</p> <p>20 Q. Do you know what XPF is?</p> <p>21 A. I know what XPF is in relation to this</p> <p>22 document, and specifically within this section of</p> <p>23 the document.</p> <p>24 Q. Okay. Can you explain it to me --</p> <p>25 A. Sure.</p>	<p style="text-align: right;">197</p>

MICHAEL BROWN - CONFIDENTIAL - ATTORNEYS' EYES ONLY

<p style="text-align: right;">218</p> <p>1 MICHAEL BROWN</p> <p>2 of information. You have to look for two pieces to</p> <p>3 see if that DLL is valid; it has to be present and</p> <p>4 registered.</p> <p>5 THE WITNESS: If you guys don't mind, I'd like</p> <p>6 to take a break when there's an opportune time. I</p> <p>7 know you're in the vain here, not urgent, I'd just</p> <p>8 like to --</p> <p>9 MR. BALABANIAN: Yeah, we're just -- I'm</p> <p>10 afraid I'm finishing. Let's take one now. How</p> <p>11 about five minutes.</p> <p>12 (WHEREUPON, a recess was had from</p> <p>13 3:59 p.m. to 4:06 p.m.)</p> <p>14 BY MR. BALABANIAN:</p> <p>15 Q. Why does comScore fuzzify data? Why does</p> <p>16 it collect fuzzified data? Why doesn't it just not</p> <p>17 collect the data at all?</p> <p>18 A. You've got a couple questions in there.</p> <p>19 Do you want to break it down into a couple --</p> <p>20 Q. Yeah.</p> <p>21 A. We can take it one by one if you wish.</p> <p>22 Q. Yeah. Why does it collect fuzzified</p> <p>23 data?</p> <p>24 A. We collect fuzzified data because we</p> <p>25 don't want to collect data that would be harmful or</p>	<p style="text-align: right;">220</p> 
<p style="text-align: right;">219</p> <p>1 MICHAEL BROWN</p> <p>2 identify who that panelist is, you know. The last</p> <p>3 thing we want to have is a list of credit card</p> <p>4 numbers from panelists. That's an exposure for the</p> <p>5 panelist and exposure for us.</p> <p>6 Q. It's important to filter the information?</p> <p>7 A. In this case, we're not talking about</p> <p>8 filtering the information, we're talking about</p> <p>9 changing the information. So in this case, with</p> <p>10 respect to this, we're changing the information in a</p> <p>11 one-way manner that's not reversible; that is the</p> <p>12 goal of fuzzification.</p> <p>13 Q. Filtering and fuzzifying are two</p> <p>14 different things?</p> <p>15 A. In my opinion, filtering and fuzzifying</p> <p>16 are two different things.</p> <p>17 Q. Filtering is just not accepting the data</p> <p>18 at all, right?</p> <p>19 A. That is one possible -- that is one</p> <p>20 possible interpretation of the word filter.</p> <p>21 Q. Can you flip to 15930, Mr. Brown?</p> <p>22 A. Yes, I am there. Is there a particular</p> <p>23 section?</p> <p>24 Q. Actually, 15929 is where I'd like you to</p> <p>25 start, sorry, in the very bottom. I'm looking at</p>	<p style="text-align: right;">221</p>
